Use a Epson Projector as a wireless monitor

1191 August 14, 2023 [Projectors](#) 398

Turn on the Epson Projector

Press the Home button to bring up the home screen

Select the Screen Mirroring source, by pressing the down arrow key a few times, then press the enter key

The projector is now waiting for a laptop to send video to it, take note of what is listed as "Display Name"
