## Resetting the Google Classroom link

- Click on your name in the upper right, then select "Settings" from the drop-down menu.

- Scroll down the profile page to the section named "Account Linking", then click the "Disconnect" button.

## Account Linking

Google Classroom

Your Google Classroom account  
(maggie.driscoll@lawrence.k12.ma.us) is connected to Realize

Import More Google Classes

Disconnect

- A popup window labelled "Are you sure?" will appear. Click the "Yes" button.

### Are you sure?

You do not need to disconnect and reconnect your account to address missing students. If you are disconnecting your account in order to reconnect and view students that have not yet appeared in your roster, be aware that students only appear in your roster after they access Realize from a Google Classroom assignment or material link.

If you disconnect your Google Classroom account:

- Your previously linked classes will still be available in Realize.
- Reconnecting the same account may not sync all previous data and information.
- Your previously imported classes will no longer be available for use in Google Classroom or available for linking in Google Classroom. They will remain in Realize as manually rostered classes.

Are you sure you want to disconnect your account from Google Classroom?

Cancel

Yes

- Click the "Get Started" button to reconnect your account.

## Account Linking

Google Classroom

Before you get started, click [here](#) to learn more about how Realize integrates with Google Classroom.

**Get Started**

- A page labeled "**Sign in with Google**" may show up if you are logged into more than one Google account, if so, please use your LPS account (ends with **@lawrence.k12.ma.us**).

## Linking existing Realize classes with existing Google Classroom classes

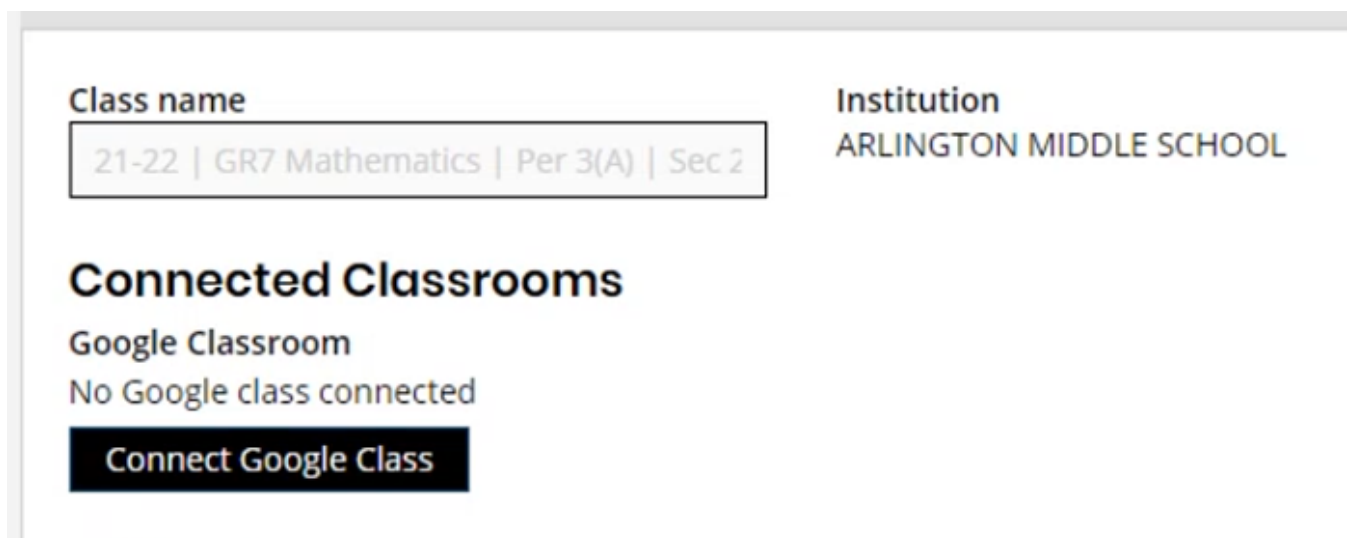

- Click on "Classes" on the top of the Realize Website.

- Look for the class you want to link, then click on "Class settings".

- Click on "Connect Google Class".

- Select the correct Google Class from the list.

## Select the Google class(es) you'd like to use in Realize.

Once you have imported classes from Google Classroom, changes will show up automatically. [Learn More](#)
