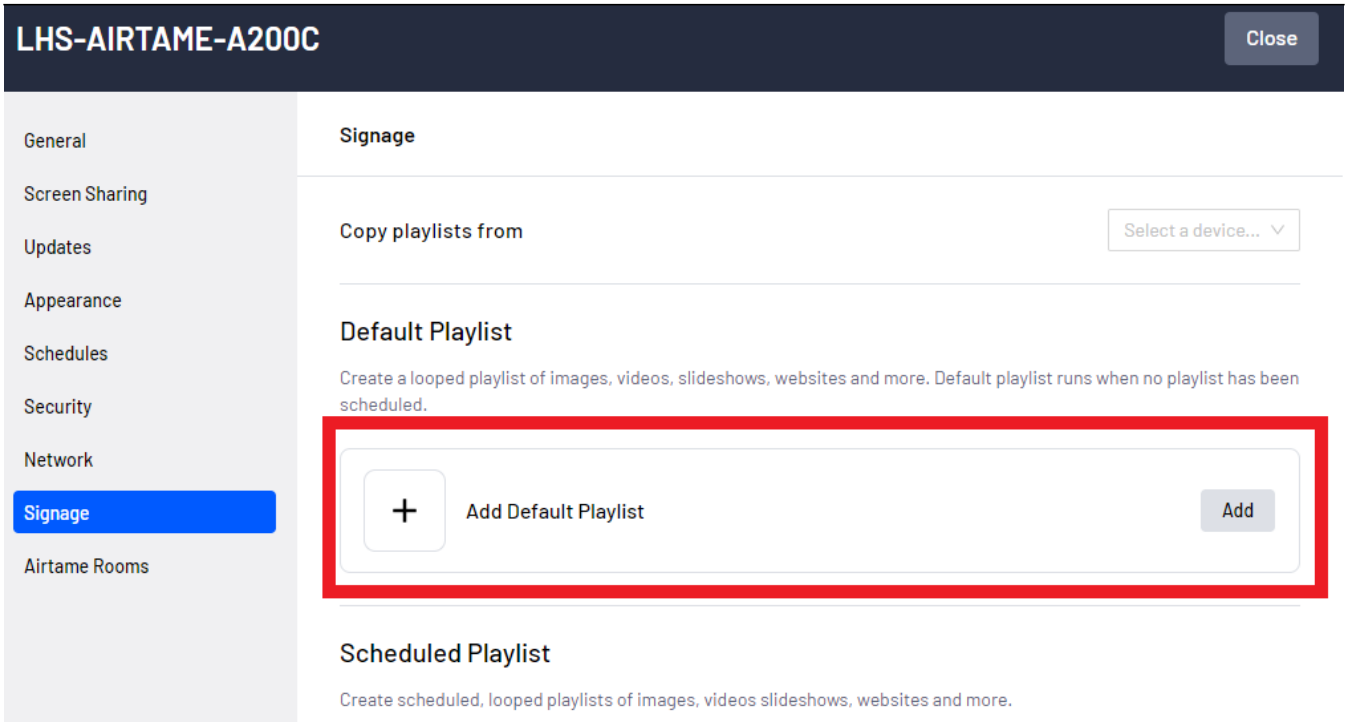
Setting up a new playlist

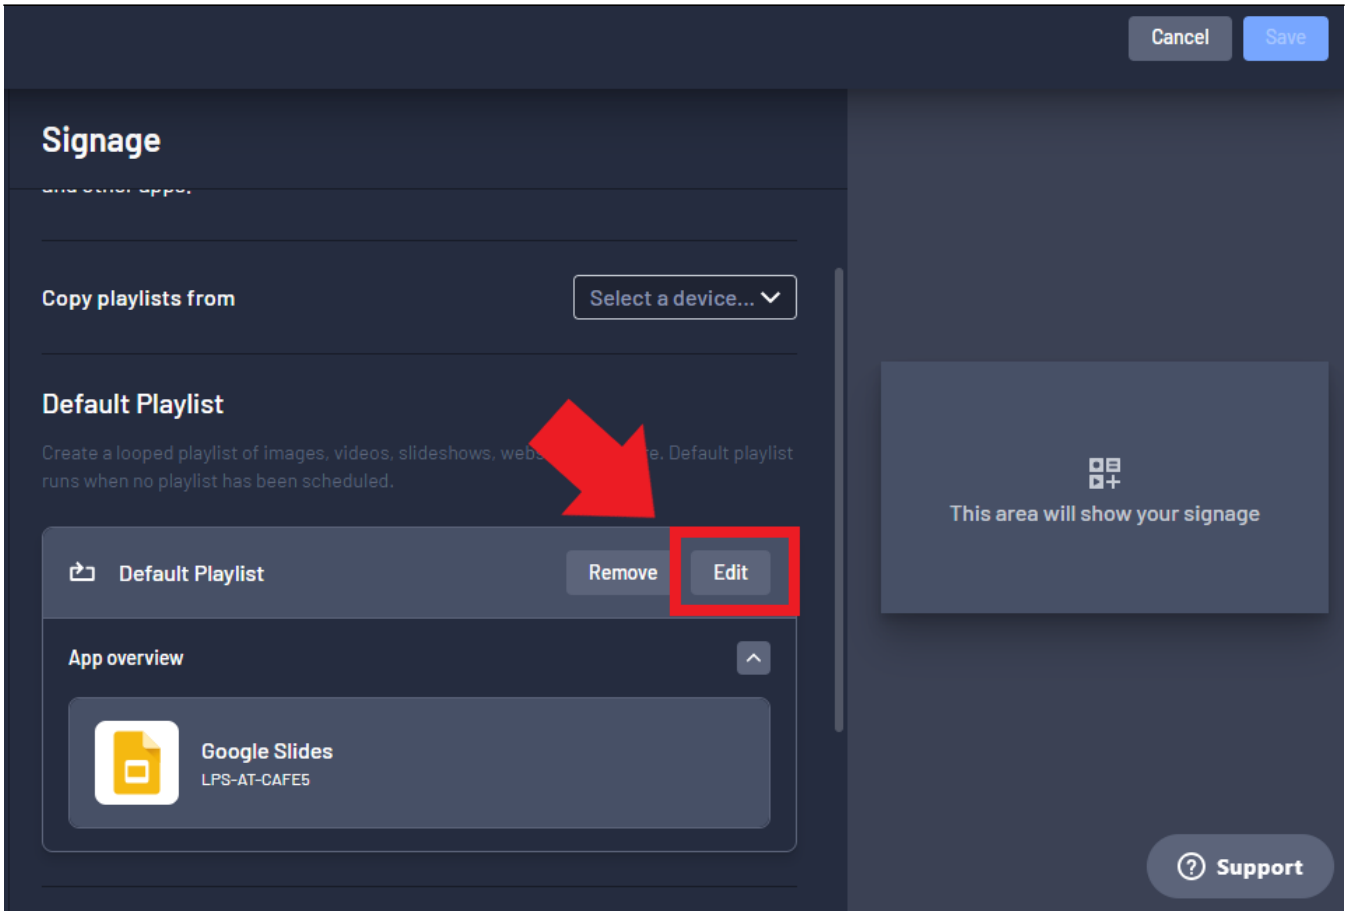
- Under "**Default Playlist**" click "**Add Default Playlist**"



- Select the app you would like to add

Editing an existing playlist

- Under "**Default Playlist**" you will see the currently playing apps. To edit the the playlist click the "**Edit**" button next to the **Default Playlist**.

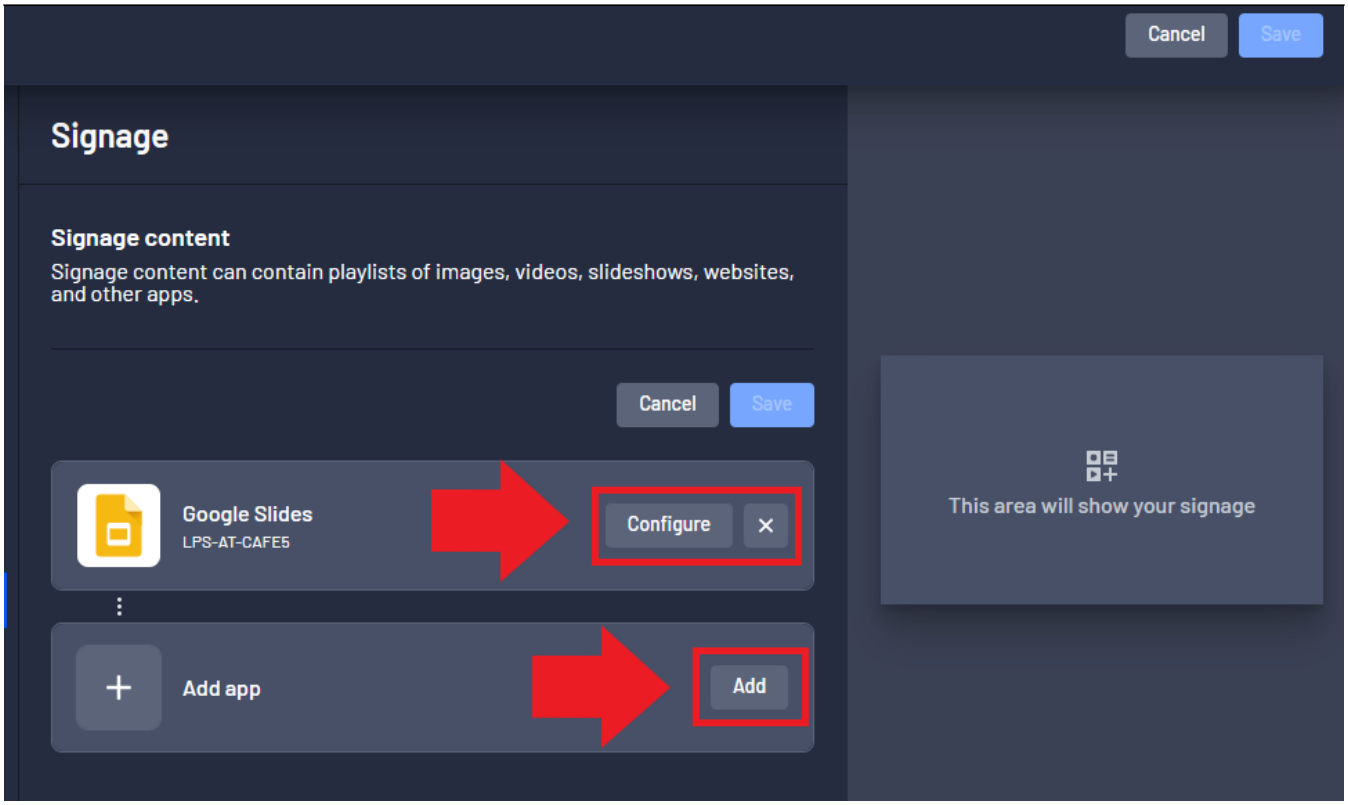


- The next screen will let you **add**, **remove** or **edit** the currently running apps.

* Clicking the "**X**" button next to the app will **remove** it from the playlist

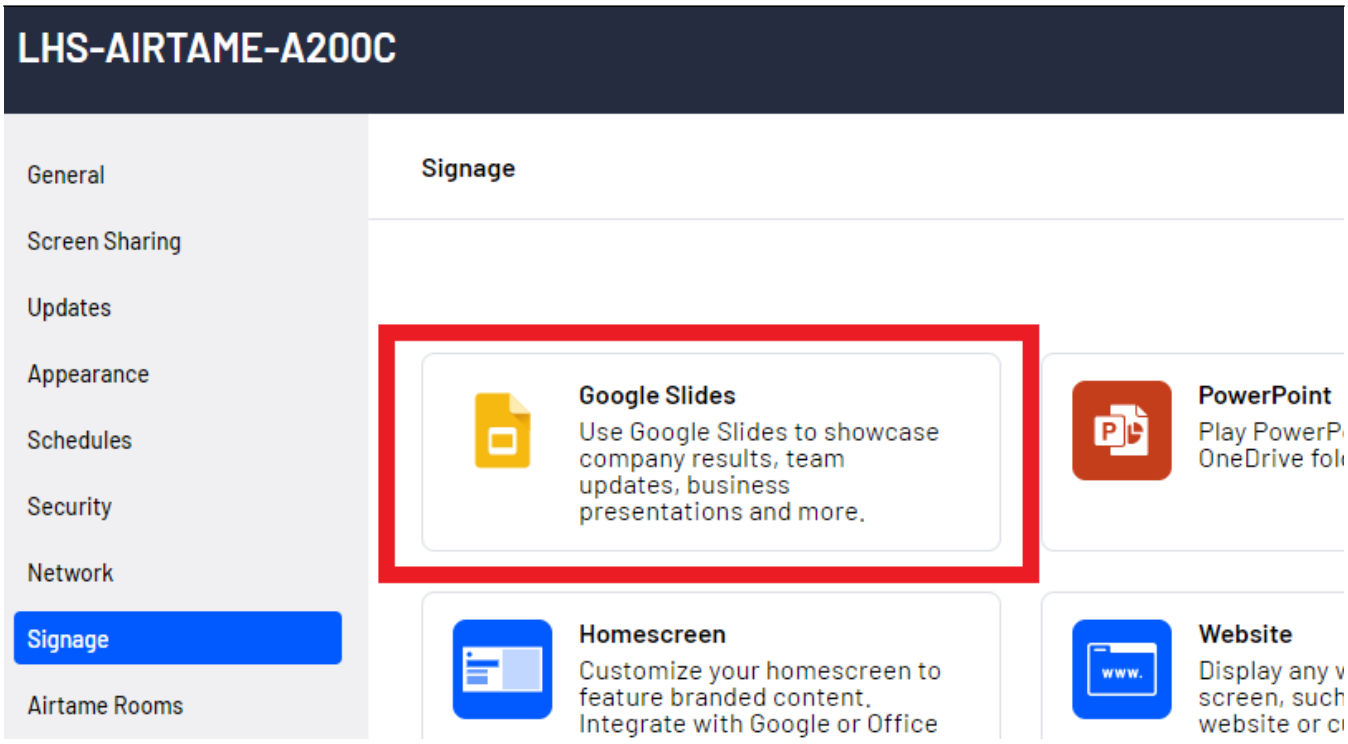
* Clicking the "**Add**" at the bottom of the playlist will **add** another app to the current playlist

* Clicking the "**Configure**" button next to the app will let you **edit** the app



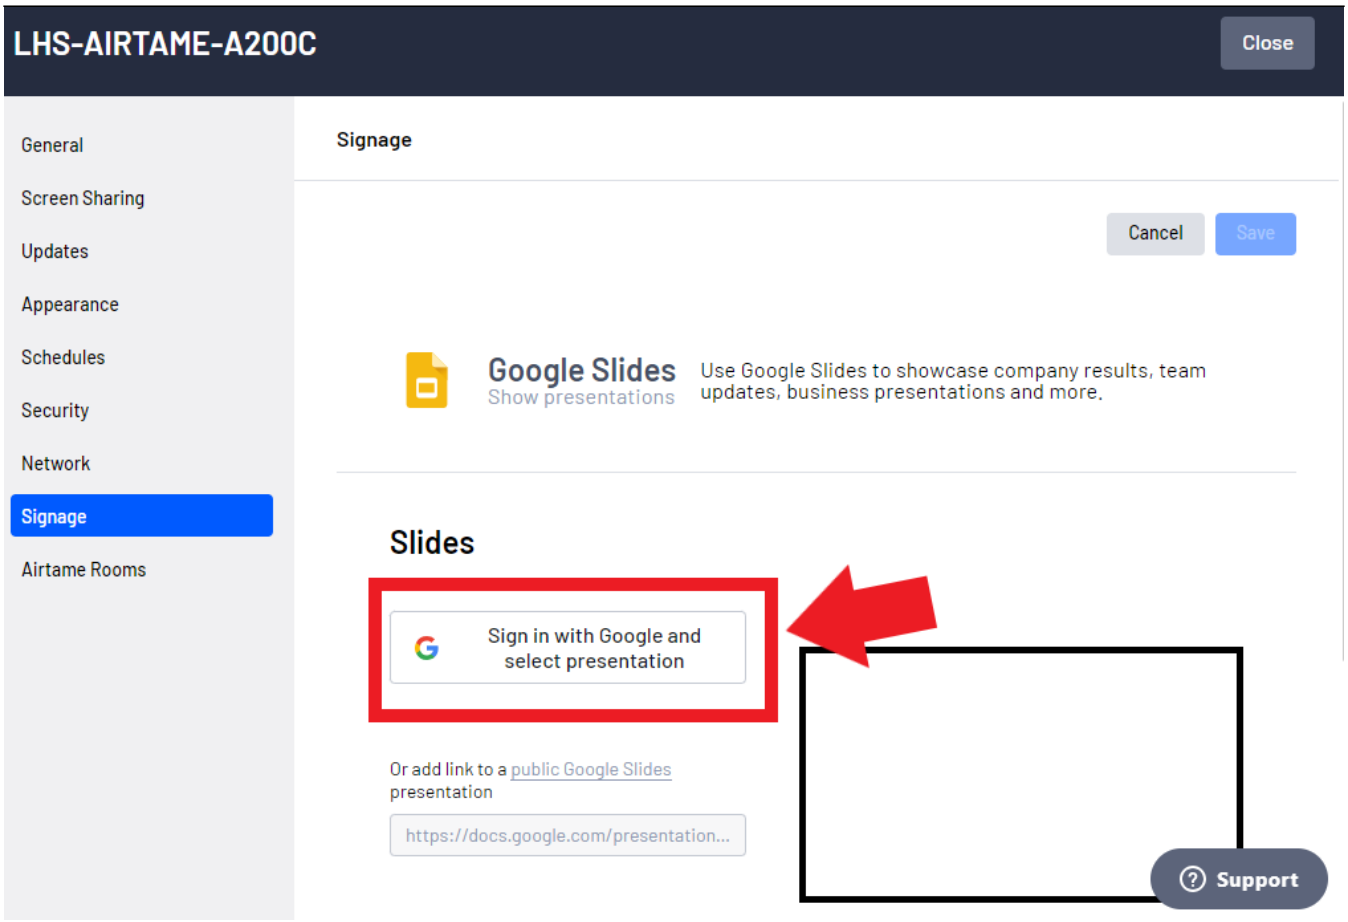
Adding a Google Slide presentation

- After selecting "**Add**", click "**Google Slides**" from the list



- In the "**Slides**" section click "**Sign in with Google and select presentation**"

- (**Optional**) You can also paste a link to the presentation into the textbox below the button if you have a direct link a public presentation



- Log in with your LPS account, or select your account from the list

https://www.youtube.com/wat...
Videos will play at the highest quality (maximum of 1080p), dynamically adjusting to the internet bandwidth available to the Airtame device
Support

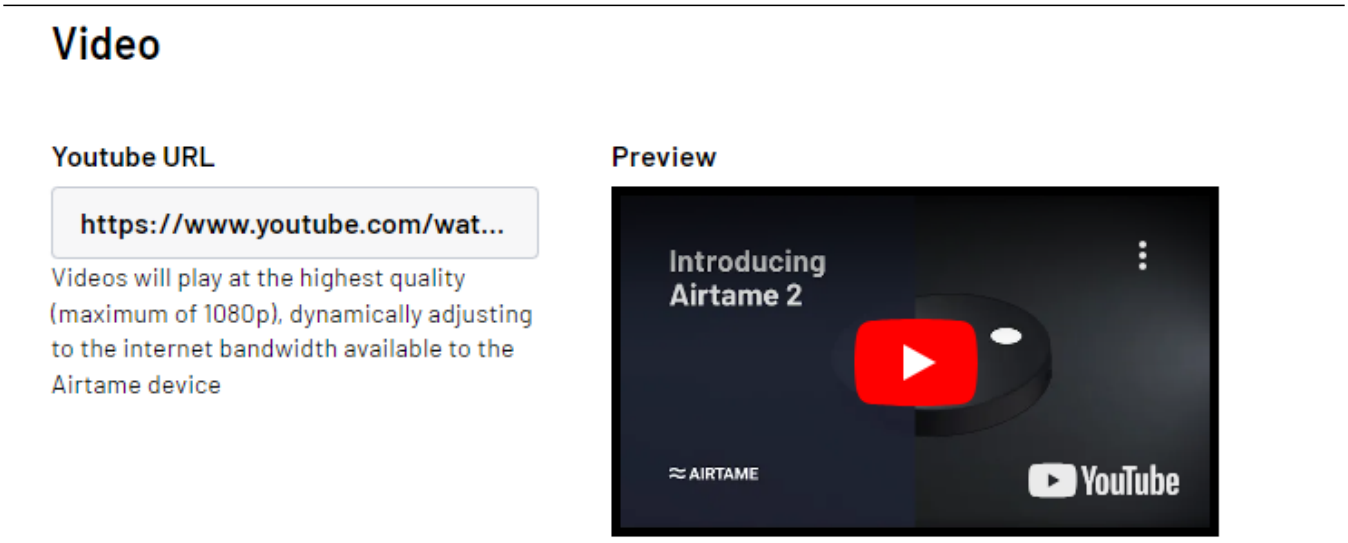
- The preview window to the right should display the video that will be sent to the display. Please be aware that the video may need to be whitelisted prior to display

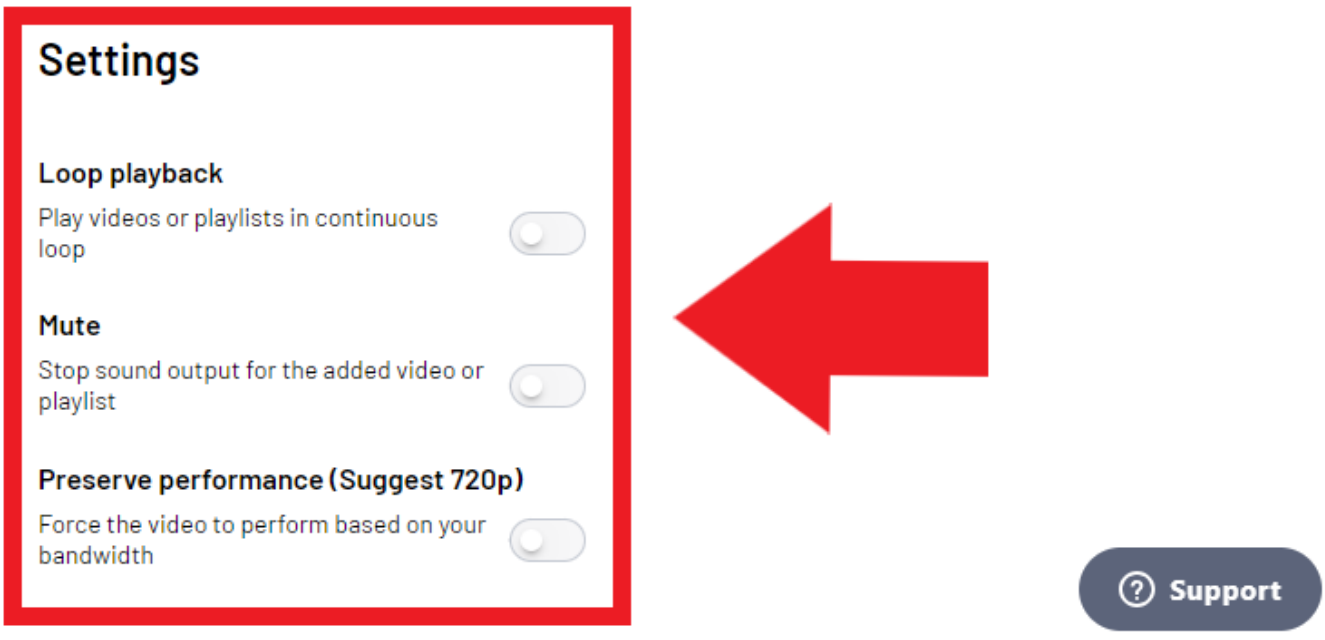
- In the "**Settings**" section you can enable the following settings:

* **Loop Playback** - Will continuously replay the video

* **Mute** - Disables the sound on the video

* **Preserve performance** - Lowers video quality to reduce demand on the network





- When you are done adding the video and changing settings click on the "**Save**" button
