You will be prompted to save the network settings. Select "Yes"

[Network Settings] Save the network settings?	
Yes No Cancel	

You will be taken back to the main settings menu. You can exit this menu at any time

Sharing Screen

Press the Home button on the remote

At the home screen the projector name and keyword will be displayed at the top of the screen. This will be needed when attempting to connect to the projector.

More instruction can be seen if you select "Screen Mirroring1" or "Screen Mirroring2" from the home screen

Note: Casting can be started on Windows laptops by pressing the Win + K on your keyboard. A sidebar will appear & the display should appear on the list.
