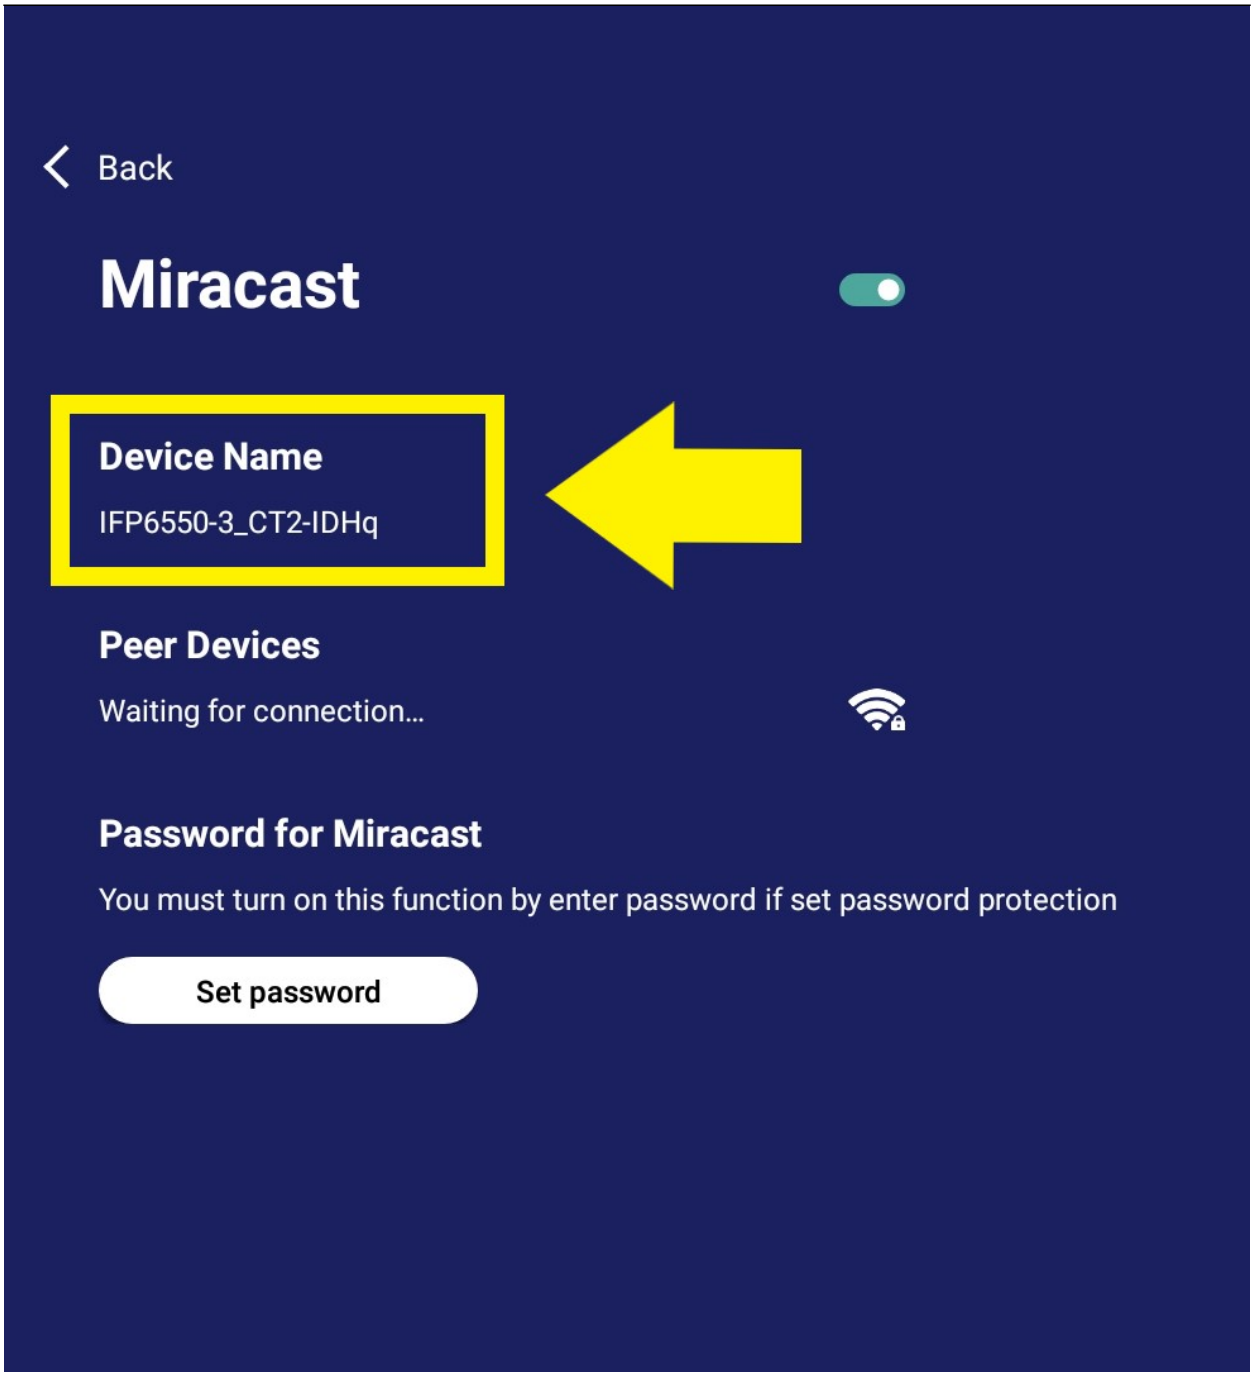
Password for Miracast
You must turn on this function by enter password if set password protection
Set password

- Note the device name that appears under "**Device Name**". This is the name of the display you will connect to on your laptop

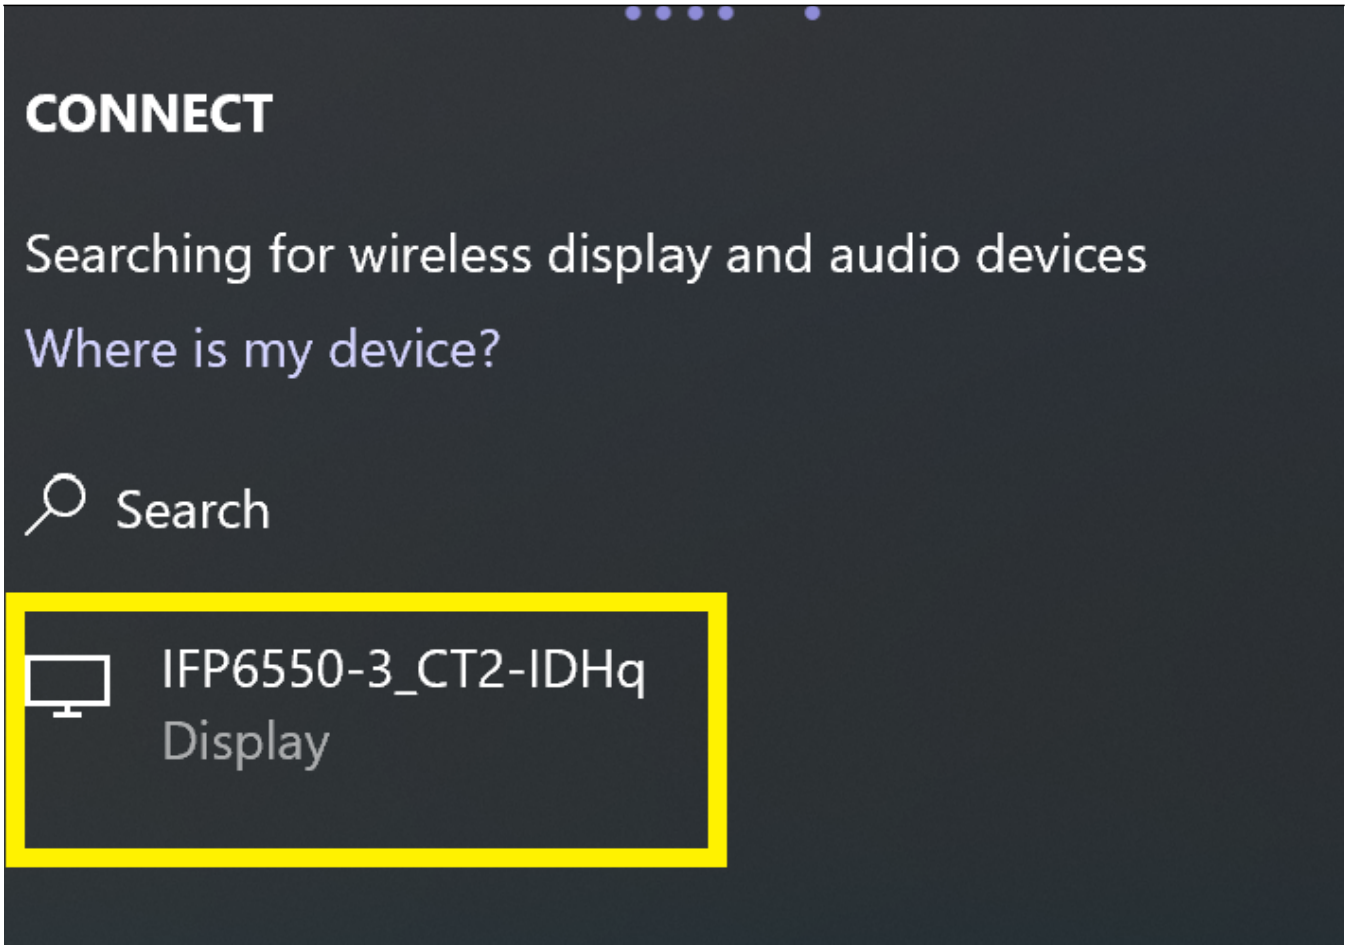


## Starting a screen sharing session

- On the windows laptop, press the **Windows** and **K** keys on the keyboard at the same time

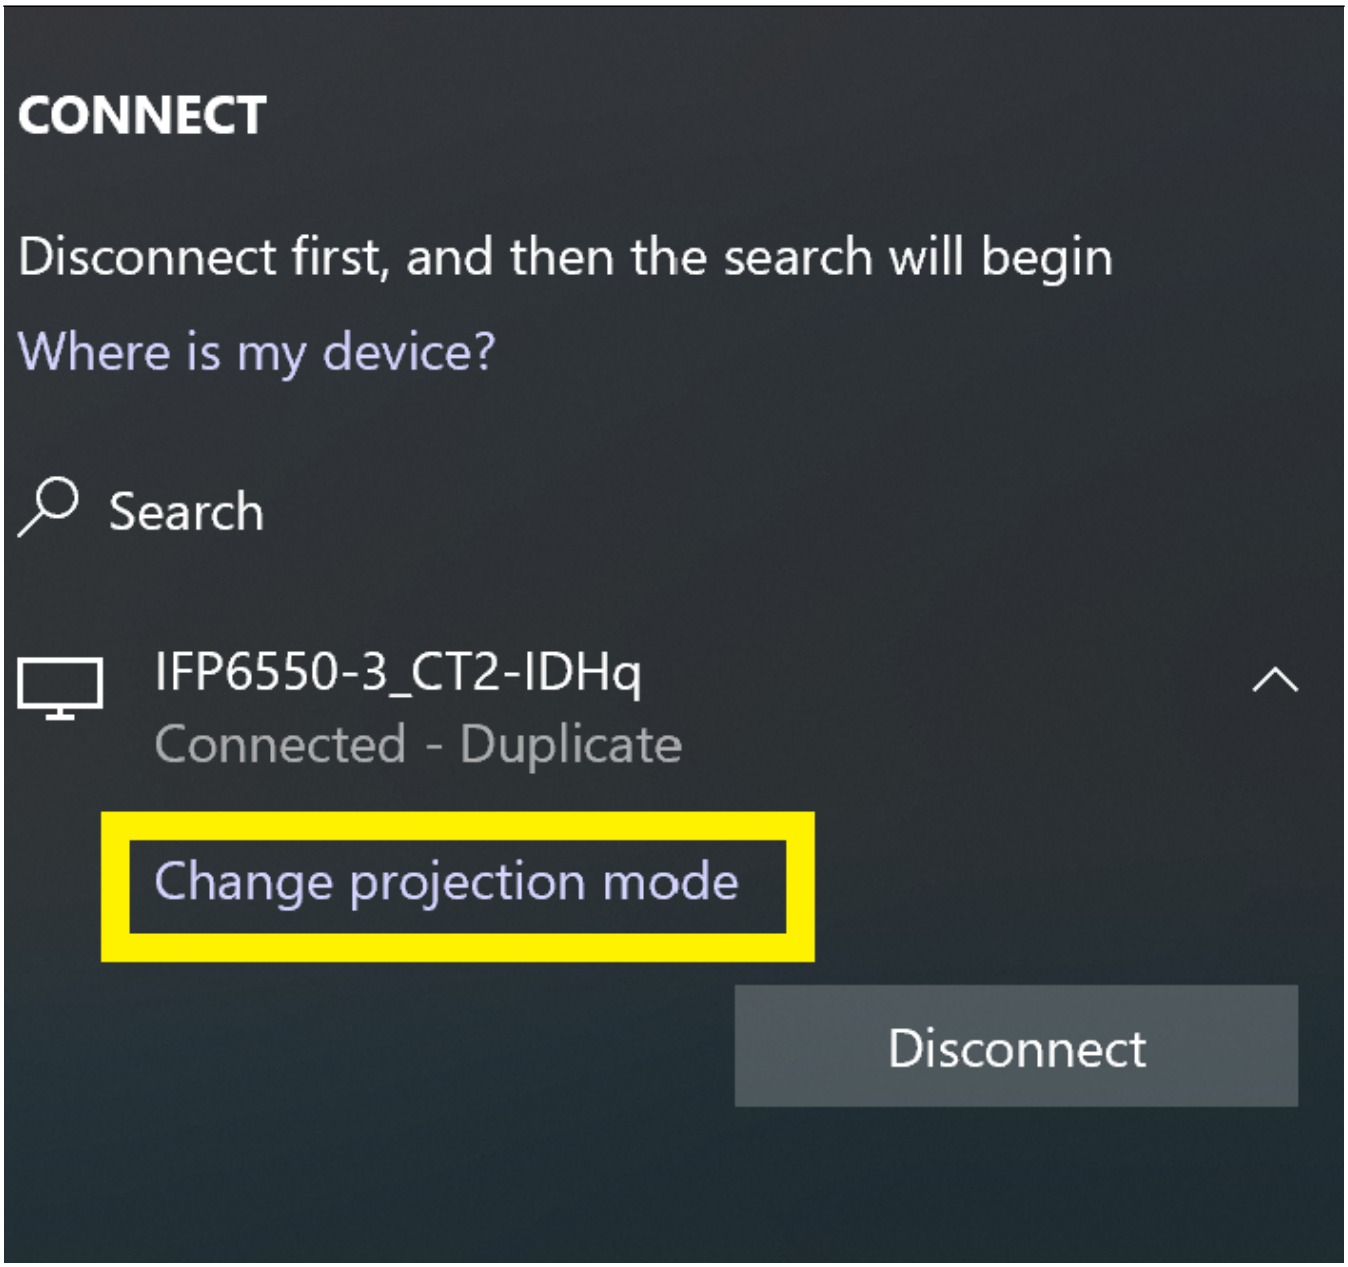
- A side menu will appear on the right side of the screen

- Click on the display to connect to it. The display in the list will have the same name as the device name on physical display.



- Once connected, the status under the display you clicked on will change to "**Connected**".

- If needed you can change the way content is displayed by clicking "**Change projection mode**".



- You can select from either "**Duplicate**" or "**Extend**". **Duplicate** will mirror your laptop screen to the display. **Extend** will treat the display as a second monitor
