How to share a screen to a Promethean display - Miracast

Promethean displays have the ability to wirelessly display content from a Windows laptop using Miracast.

Starting a screen sharing session

- **On the Promethean display**, tap on the menu button at the bottom-center of the screen. It should appear as a slim black button with 3 dots "**...**" in it

- You can also press the Promethean button at the bottom of the display
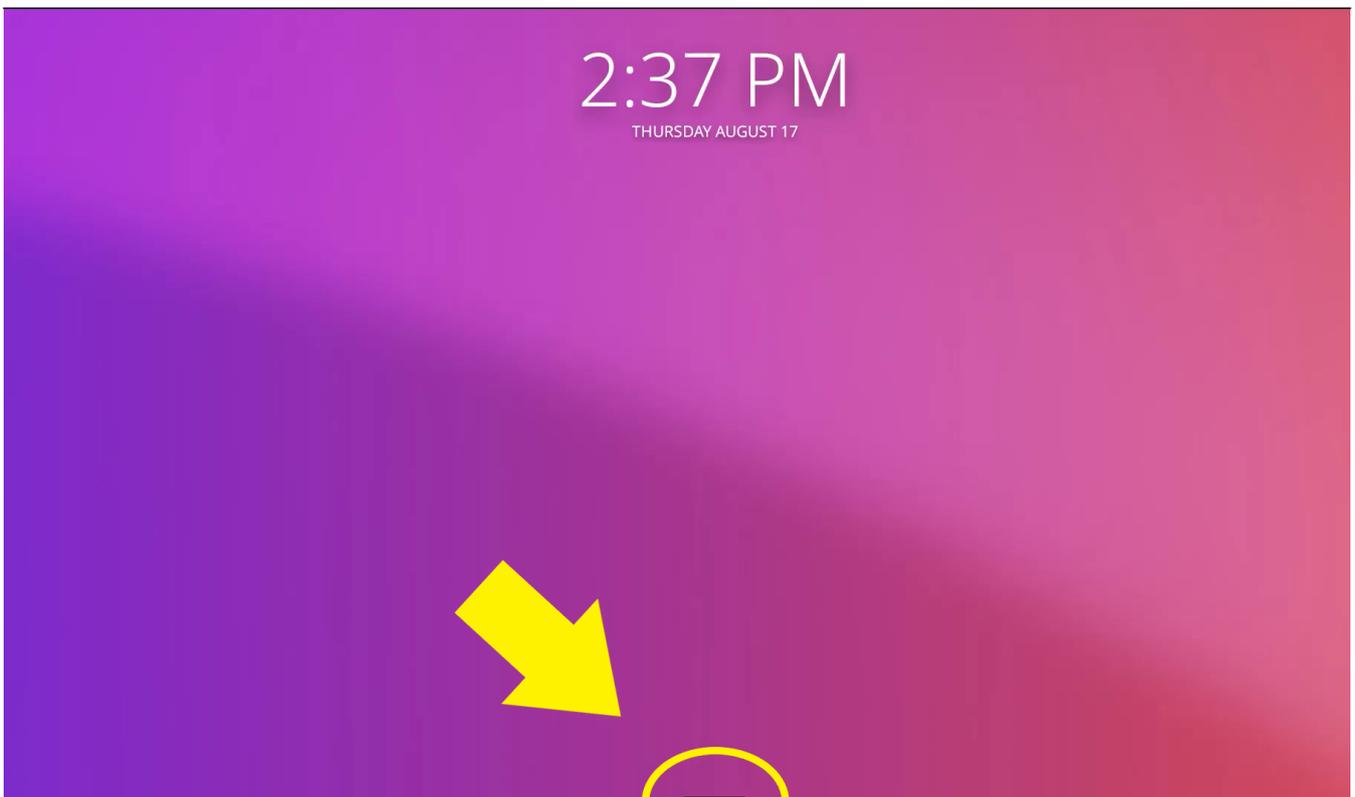

- Tap on the "**Applications**" icon

2:37 PM
THURSDAY AUGUST 17
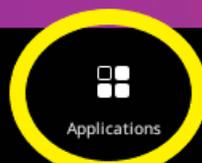

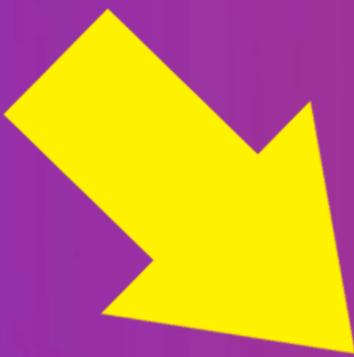

Applications   Annotate   Screen Capture   Screen Recording

- In the "**Applications**" window tap on the "**Screen Share**" app

2:37 PM
THURSDAY AUGUST 17

Applications

Camera	Gallery	Chromium	Adobe Acrobat
Files	Screen Share	Device Management	Activities	Annotate
Promethean Blockly	Promethean Account	Screen Capture	Spinner	Timer

- A new window will appear. Tap on the waiting room icon at the bottom-left of the window

2:37 PM

THURSDAY AUGUST 17

Panel ID

| 2 | 4 | 2 | 2 | 5 | 2 |

Panel Name
ActivPanel-242252

- Note the name that appears next to "**Panel Name**" at the top of the screen in the waiting room. This will be the name of the display you will be connecting to
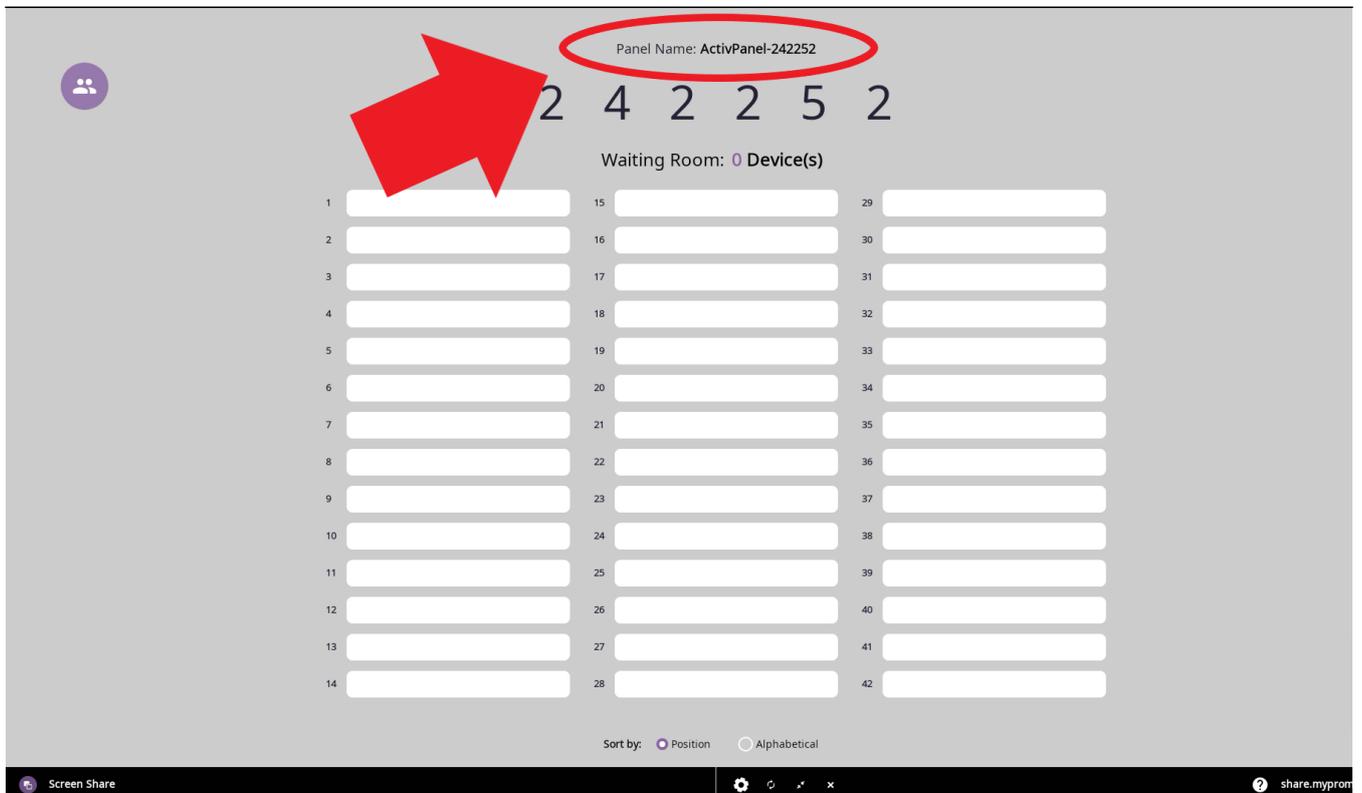

- **On the laptop**, press the the **Windows** and **K** keys on the keyboard
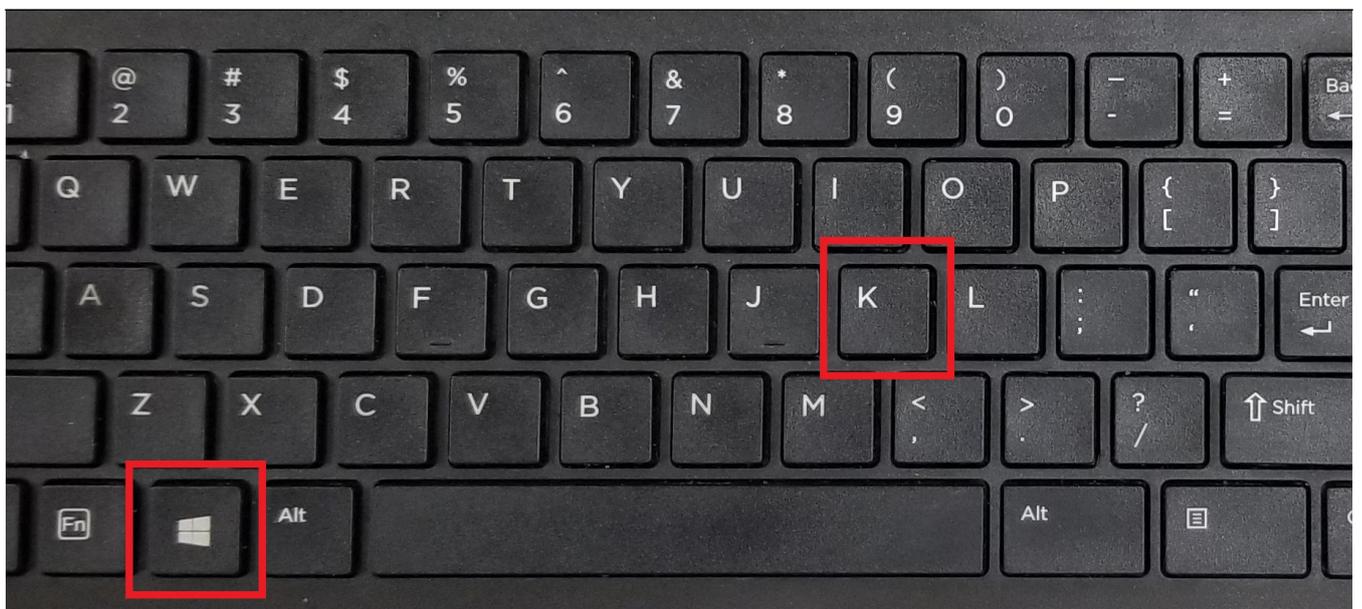

- A sidebar will appear on the right side of the screen

- Click on the display you want to connect to. This will have the same name that appears on the physical display in the room

- **On the Promethean display**, you may see an invitation pop-up window. Tap on "**Accept**"

Panel Name: **ActivPanel-242252**

2 4 2 2 5 2

Waiting Room: **0 Device(s)**

- **On the laptop**, once connected, you can click on "**Allow mouse, keyboard, touch, and pen input from this device**" in the sidebar to allow the Promethean display's touchscreen to work with your laptop

NOTE: If the sidebar disappears you can press the **Windows** and **K** keys at the same time on the keyboard to open it again

CONNECT

Disconnect first, and then the search will begin

Where is my device?

🔍 Search

🖥️ ActivPanel-242252 ⌃
Connected - Duplicate

Change projection mode

☑ Allow mouse, keyboard, touch, and pen input from this device

Disconnect

- If needed you can change the way content is displayed by clicking "**Change projection mode**"

- You can select from either "**Duplicate**" or "**Extend**". **Duplicate** will mirror your laptop screen to the display. **Extend** will treat the display as a second monitor

PROJECT
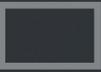

Disconnect

Duplicate

Extend

Second screen only

Connect to a wireless display

- A menu bar will also appear at the top of the screen. When you are finished with the session you can click "**Disconnect**" to stop sharing the laptop to the display
